– Jacqueline F

"...Recommend this to anyone with a crazy schedule because it's so convenient!"

– Delia B

"Cannot begin to express how happy I am. We recently rescued a 10 month old abused dog with a lot of trust issues. GoodPup has gone above and beyond answering questions and are always so fast! They have helped me build my puppy's confidence and help him be a puppy again..."

– Mrs. Rudinger

"I adopted a rescue dog during the pandemic and was delighted to find this app... What I found was a nice progressive curriculum with focused 1:1 interaction with the trainer... I've done several dog training over the years. With dog class there is too much distraction and not a lot of focused time with the trainer – here you can focus on your dog and ... know exactly what homework to work on."

– Dr. J
